VOLUME CVIII.--NO. 75. ALEXANDRIA, VA., THURSDAY EVENING, MARCH 28, 1907. PRICE 2 CENTS.

They Stand Alone.

Standing out in bold relief, *all alone*, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—*printed in plain English*. This frank and open publicity places these medicines *in a class all by themselves*, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither *—being of known composition.*

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

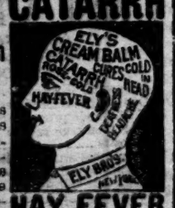
A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

A Positive CURE CATARRH

Ely's Cream Balm

is quickly absorbed. Gives Relief at Once.



It cleanses, soothes heals and protects the diseased membrane. It cures Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts., at Druggists or by mail; Trial Size 10 cts. by mail. Ely Brothers, 56 Warren Street, New York.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

THE RAILROAD SITUATION.

The conference on the railroad situation held at the White House last night lasted for nearly three hours. Those present, in addition to the President, were Mr. Cortelyou, Secretary of the Treasury; Mr Garfield Secretary of the Interior; Mr. Bacon, Assistant Secretary of State, and Chairman Knapp, and Messrs. Lane, Clements, Clark, and Harlan, and Special Counsel Kellogg, of the Interstate Commerce Commission.

The present railroad situation was considered and discussed from every angle. No conclusion was reached as to how or when the President should sound a note that would be reassuring in its effort upon the transporting world. The President again made it clear that he fully appreciates the seriousness of the tendencies toward demonstration in the railroad business and of his desire to do or say something that would restore the equilibrium. The principal obstacle to action on the part of the President seems to lie in the certainly that any public utterance or move on his part in the matter might be misinterpreted.

By frequent consultation with officials and others in whom he has confidence he is showing an earnest effort to ascertain what is possible to be done in the present state of affairs. It is stated on good authority that no concrete plan was proposed last night that the President might utilize in taking a course of action calculated to bring order out of what appears to be the chaotic condition of affairs that confronts the good as well as the bad railroads. It is understood that the proposal made by Mr. Schiff that the railroad men and the Interstate Commerce Commission should meet and agree upon legislation that the President should recommend to Congress was not touched upon at all.

The visit of the delegation representing the Illinois Manufacturers' Association yesterday morning was important in that its members painted for the benefit of the President a very gloomy picture of present business conditions. They spoke from the standpoint of their own experience, making it plain that unless some action was taken soon to put an end to the present uncertainty, the unexampled prosperity of the country might give way to unexampled hard times.

Argo Red Salmon at 15 cents a can, is cheaper than beef steak at 10 cents per pound because it contains more nourishment.

Open Shop on Isthmus.

The President has served notice that the open shop principle must prevail in the machine shops on the isthmus. While the reports of a strike among the workmen on the canal zone are denied at the office of the canal commission it is admitted that agitators are constantly turning up among the men there and endeavoring to unionize them and enforce the closed shop rule. Owing to the firm stand which the President has taken in the matter this has thus far been prevented, but at the same time the labor situation is not entirely satisfactory to those who have to deal with canal matters.

The steamshovel men, who are at present making the demands for increased wages, are organized, and once before have been in a position to force the government to increase their pay. Originally the pay of the engineers employed on the steam shovels was $185 per month, which is far in excess of the average rate of wages paid them in the States, and $60 more a month than their union scale. In addition, they are allowed housing, fuel, and light.

At the present time the engineers' wages are $210, an increase of $25 a month having been made several months ago. They are seeking an advance to $300 a month. Cranesmen are now paid $185 a month and want a raise to $250 a month. Firemen get $83.33 a month and are asking for $110.

The steam shovel men are employed eight hours a day, with pay and a half for overtime, but frequently, it is said, they are not obliged to work a full day of eight hours, but no deduction is made in their pay on account of a short day.

A Humane Appeal.

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthsic, stops hemorrhages of the lungs and builds them up. Guaranteed at E. S. Leadbeater & Son's drug store. 50c and $1. Trial bottle free.

Japan's Policy.

Mail advices received in San Francisco from Tokio state that Viscount Hayashi, foreign minister of Japan, in a speech before the Japanese Diet, in answer to questions of members regarding the government's attitude concerning the refusal of the San Francisco authorities to admit Japanese to the public schools, said:

"The American government, which throughout had shown profound sympathy with the Japanese nation, sent us a telegraphic expression of its regret at the occurrence before our protest had reached Washington. We considered that our proper course was to stand on one side and patiently await the development of affairs. In regard to the foreign suspicion of aggressive intentions on the part of Japan, the ideas can only be attributed to great ignorance of the conditions in this country. The military and naval proposals in the budget are of a kind merely to restore and reorganize the national forces, just as every other nation is doing. On behalf, not only of the government, but also of the nation, I beg to declare that Japan has no aggressive intentions whatever. As far as commerce is concerned, our policy may or may not be considered aggressive. We intend to push our interests to the front. We have the right possessed by all countries to peacefully compete with other nations, but we intend to firmly adhere to the principles of equal opportunity and the open door, in which we have the fullest belief."

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. It's nice even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

The Divorce Mill.

During working hours of court officials there is a divorce suit filed every two minutes and a divorce granted every three minutes in the United States, according to figures compiled by the Census Bureau. This has been the average for the past 20 years, and census officials say the average is increasing at an alarming rate.

For the 20-year period from 1867 to 1887 there were only 328,000 divorce suits filed in the country. For the 20-year period from 1887 to 1907 the number aggregates 1,400,000, or four times the number for the first period. However, the population also increased somewhat. Experts figure that for the 20-year period prior to 1887 there were 33 divorces for every 100,000 inhabitants, while for the 20-year period from 1887 to 1907 there were 70 divorces for every 100,000 population. Decrees are issued in about two-thirds of the suits filed.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, MAR. 28, 1907.

LESLIE WILLIS SPRAGUE talking to the Women's Conference of the Society of Ethical Culture in New York on Monday said:

I regret that men are losing their culture. I don't want to malign my own sex, but it is a fact that by the time a man is forty you can't tell, in most cases, whether he has been to college or not. A man's nose is at the grindstone all the time. All he sees is dust. The burden of supporting a family has grown so great that it is grinding all that is highest and best out of the men of the race.

Many people will take issue with Mr. Sprague. It is not the want of time, but the failure to utilize the time placed at our disposal. The late A. T. Stewart, the millionaire dry goods merchant of New York, arrived in that city from Ireland dependent upon his own individual exertions for support. After he had become a prosperous merchant his biographers tell us he worked twelve hours daily, and, notwithstanding his strenuous life, he spent his evenings home studying Greek as a rest for the mind. Elihu Burritt, the renowned blacksmith, managed to find moments for the improvement of his mind, while Benjamin Franklin, Horace Greeley and thousands of others of less note were burdened with responsibilities all their lives, but managed to read, to become intelligent and prominent. It is said of Henry Ward Beecher, nearly all of whose time was pre-empted in one way or another, met a friend one day who had recently published a large volume on some subject. Beecher told his friend he had read his book with interest. The writer, knowing Beecher led a busy life, asked how he had found time to read his book. The renowned preacher replied by saying that he had taken the volume to the dinner table and had from time to time read a few lines while the viands were being placed on the board, or while the courses were being changed. This is a hint to all. Beecher simply utilized moments generally thrown away by others. Some one has observed that "ignorance is a voluntary misfortune." This seems paradoxical, but there is much in it, especially in our day. Standard books were never so cheap, but, unfortunately, the little read by many people is of a nature which is neither food for the mind or the soul; hence the lack of intelligence on the part of such is due to the fact that they are not seeking wisdom either in books or among cultured people. The instinct to improve each passing moment as it flies is stunted while the myriads who fail to train the intellect with which they are endowed by nature bring on mental torpor which is apt to follow the victims through life.

THE BUSINESS organization of vice for "sale of dissipation" is the subject of an article entitled "The City of Chicago", by George Kibbe Turner, in periodical. Mr. Turner would show that the "sale of dissipation" is the real cause of the great waves of crime in American cities. He chose Chicago, "not because it is worse, or different from other American cities, but because it is so typical and so well known." He asserts that Chicago spends one hundred million dollars a year for alcoholic liquors, twenty million dollars for prostitution, fifteen million for gambling, that the dealers in dissipation in Chicago have a total revenue of at least $135,000,000 a year, at least two-thirds as much as the revenues of the retail grocers and butchers. Mr. Turner attributes much of the crime in Chicago to the fact that hundreds of thousands of rough laborers are plied with liquor. This kind of crime is in every city, he says, but the facilities of Chicago double and treble it. The writer finds the answer to the question, "Why Chicago has such a great flood of crime every year," as follows: Because of the tremendous and elaborate organization, financial and political for creating and attracting and protecting the criminal. He points out that the increase in the saloon licenses serves only to crush the small, outlying saloons, while those "with a side line of prostitution and gambling" profited by the others failure.

WARS AND RUMORS of wars are again in evidence. The Nicaraguans have beaten the Hondurans; there is anxiety concerning affairs in Bagdad, and a cloud about as large as a man's hand is causing apprehension in the east and has impelled the United States to make a movement to ascertain Germany's intentions; France has seized Oujda, in Morocco, in order to enforce French claims; unsettled conditions are reported in Persia; Roumania is in the throes of an insurrection, and Venezuela is having trouble with revolutionists.

BISHOP HENRY Y. SATTERLEE condemns in strongest terms persons who neglect their church devotions during holy week for the pleasures of theatre-going. In an address the other night, at the confirmation exercises at the Church of the Good Shepherd, in Washington, he referred to the coming of the opera to that city at that time as an unfortunate thing, saying that it doubtless would be well attended. And it will be. The bishop knows the people of Washington well.

THE CROWDS which gather near and at the Corporation Court room morning and evening to see a soldier company, having in charge a colored prisoner, embark and disembark from an electric train, are growing smaller by degrees and beautifully less and all hope that such scenes will soon be brought to a close. Why the man would not be as safe in the jail of this city as in that in the county is not satisfactorily explained. His imprisonment here would certainly give the soldiers less trouble.

AND NOW a scandal has come before the board of governors of the Jamestown Exposition, the chief of the explotiation of the exposition having been charged with attempted "graft." It seems that graft nowadays enters into nearly every public enterprise and the belief that public office is a private snap is spreading.

From Washington.

The gunboats of Nicaragua are hot in chase of the fleeing President of Honduras, Bonilla. The State Department today received a dispatch from United States Minister Merry announcing that he had received telegraphic advices that the Nicaraguan navy was bombarding Amapala. This town is situated on Tigre island in the bay of Fonseca and is the place to which President Bonilla fled after his defeat at Choluteca and the fall of the Honduran government. It is also Bonilla's stronghold.

President W. Finley of the Southern Railway says running a railroad is just like conducting any other business and that railways are partners of every business man. He makes a plea for harmony between the railroads and the people.

Otto Seelhorst, who shot and killed von Iverson in the National Museum last winter, was placed on trial in Criminal Court today. His defense was insanity. The jury returned a verdict of insanity, and the prisoner was ordered to the Government Hospital for the Insane.

It was announced at the White House today that the visit of Marvin Hugitt, President of the Chicago and Northwest Railroad, was for the purpose attending the meeting of the trustee of the foundation for the promotion of industrial peace, and not to discuss the railroad situation with the President, as had been supposed.

COURT OF APPEALS.

Tuesday's proceedings in the Court of Appeals were as follows:

Lynchburg Traction and Light Company vs. Guill. Argued and submitted.

Burnette vs. Young. Argued and continued until today.

The next cases to be called:

Browden vs. Southern Railway Company, and Smith vs. Smith, being Nos. 91 and 75 on the argument docket.

The Court of Appeals yesterday handed down four opinions, taking the lawyers by surprise, Thursday being opinion day as a rule.

In the case of Thomas, alias Wright, a conviction in Alexandria county for assault, the court, as stated yesterday, refused to grant a petition to rehear the case, Judge Keith handing down an opinion of seven pages. Thomas was convicted several months ago, and the case was brought to Richmond in January, the court last Thursday denying to grant an appeal, Judges Cardwell and Whittle filing a dissenting opinion. The opinion yesterday briefly reviews the case and evidence, and concludes as follows:

"We do not wish to be understood as intimating that any right was denied to the prisoner by the judge of the Circuit Court. We merely mean to asse.t that in this case, or in any case, the right of a person accused of crime to have the very truth of his case put upon the record in order that it may be the subject of review, be denied; there is ample remedy provided by law to meet such a case. With a full sense of our responsibility, we have reconsidered the questions of procedure and of law which arise upon the record, and are constrained to adhere to the record which has been entered. The petition for rehearing is denied."

Other cases:

By Judge Cardwell; Tidewater Railway Company vs. Cowan, et als. Circuit Court of Montgomery county. Affirmed.

By Judge Harrison: Pine Beach Investment Company vs. the Columbia Amusement Company. Circuit Court of Norfolk county, Reversed.

By Judge Whittle: Clark vs. Fehlhaber. Circuit Court of Elixabeth City county. Reversed.

Southern Methodists.

The Baltimore Conference, Methodist Episcopal Church South, met in Staunton yesterday, with Bishop Hoss presiding. Practically the entire membership is present. Rev. Dr. J. F. Armstrong was unanimously re-elected secretary for the forty-seventh year. He appointed as assistants Rev. E. V. Regester, G. T. Tyler, James P. Stump, Henry S. Coe, William M. Walters and Thomas J. Lambert.

The several conference committees were appointed and the presiding elders all reported. Progress is shown in every district.

In the Washington district Rev. J. S. Hutchinson reports over 600 additions to the church. Rev. W. F. D. Harper, of the Winchester district, reports over 500. Rev. J. H. Davidson, Dr. J. H. Boyd and Rev. W. P. Coe asked to be placed on the superannuated list. Rev. W. F. McMurray, D. D., of Louisville, secretary of church extension, delivered a stirring address last night.

News of the Day.

Reports received at St. Johns, N. F., state that the steamer Greenland with 183 men aboard has been lost off the coast of Newfoundland.

Fire today at Guilford, Chenango county, N. Y., destroyed the opera house, postoffice, two stores, and several dwellings. The village is without fire protection.

Word has just been received in Boston that Chick Stahl who recently resigned as Manager of the Boston American League Base Ball team committed suicide today at West Baden, Ind.

Miss Lucy Killen, the schoolteacher who was held up in the woods near Dover, Delarware, by two strange men believed to be the kidnappers of little Horace Marvin, today joined in the search for the abductors.

John Brislin, inventor of the massive rolling mill machinery, by which beams of iron weighing tons are run through the rolls and through which Andrew Carnegie made most of his millions, died last night in Pittsburg, Pa., at the age of seventy-two, blind and in poverty.

At Pennsylvania today Nathan Y. Landis, a Philadelphia furniture dealer, testified in the investigatson of the alleged four-million dollar graft on the Capitol that he made the bootblack stand in the Senate toilet room for about $125. The State paid contractor Sanderson, $1,619.20 for the stand.

Most of the 40,000 employees of the Southern Railway have made contributions toward the erection of a monument to the late Samuel Spencer, who was killed on his own road early on the morning of last Thanksgiving Day. The monument is to be erected at Atlanta, Ga., at a cost of something like $50,000.

Announcement was made yesterday at the recruiting station at Houston, Tex., that orders have been received from the War Department at Washington instructing that no more negroes be accepted for service in the army. Announcement was also made that all negro troops in the United States will be dispatch forthwith to the Philippines.

The proposal of Mr. Jacob H. Schiff, the eminent New York financier, for a conference of railroad managers with President Roosevelt meets no encouragement at the White House. It was stated there yesterday distinctly that there is no change in Mr. Roosevelt's attitude on the railroad question. There is no reason to believe that any conference such as suggested by Mr. Schiff will be held.

A stated yesterday James Henry Smith, known as "Silent" Smith, and reputed to be worth $50,000,000 died in Kioto, Japan, while on his honeymoon. Mr. Smith was married in Scotland to Mrs. William Rhinelander Stewart, formerly Miss Annie Armstrong, of Baltimore. They started on a tour of the world. They had been traveling in Anthony J. Drexel's yacht Margerita with the duke and duchess of Manchester.

Strike at Hand.

A dispatch from Chicago says that the 45,000 trainmen of the western railroads seemed nearer a strike last night than at any time since the negotiations were begun, two months ago, for an increase of 12 per cent. in wages and a workday of nine hours. The conference yesterday between the representatives of the men and railroad officials lasted four hours, but was a failure in bringing about a solution of the trouble.

The railroads offered the men increases of 7 per cent. to passenger conductors and 10 per cent. to brakemen, firemen, baggagemen and allied workers. When the railroad officers declared their offer was the best that could be made, the conference came to an end, as the men, by a referendum vote taken last week, had decided not to accept anything less than their original demands.

Immediately after the joint conference broke up, the representatives of the trainmen met to consider the advisability of calling a strike in order to bring the railroads to terms. Just what decision was reached was not known last night, as the union men declined to discuss what had taken place at the meeting.

They were a unit, however, in declaring that a peaceable settlement of the controversy can be reached only by the general managers offering concessions. Another meeting of the union men has been scheduled for today and the outlook last night is that a strike will be called within the next 48 hours unless the railroads request another conference.

May Accept Two-Cent Fare.

Final testimony in the 2-cent passenger rate case was taken in Richmond yesterday before the State Corporation Commission. An opportunity was offered attorneys to correct evidence already taken and to offer further evidence.

Judge Crump suggested that the attorneys consult among themselves as to which shall speak first when the case is called for argument today. But it is now generally being hinted that no argument will be made and that the railroads, seeing the action generally taken in other States, have about decided to abandon the fight and submit to the uniform 2-cent passenger rate fare.

King Alfonso's Condition.

Rome, March 28.—Private information received at the Quirinal intimates that King Alfonso, who has been in ill health for some time, is suffering from tuberculosis, which has worked such havoc in the Bourbon family. It is said that the Spanish court is extremely apprehensive as to the result of his condition.

LETTER TO J H AITCHESON

Alexandria, Virginia.

Dear Sir: Not one man in ten knows whether he's wasting money or not, when he paints. It depends on the paint.

With one paint, your job will take 10 gallons and cost $50 for paint and labor;
with another 12 and cost $63;
with another 14 and cost 70;
with another 16 and cost 80;
with another 18 and cost 60;
with another 20 and cost 100;
with another 22 and cost 110.

Here's an example. Professor Irvine, of the Academy, Mercersburg, Pa, painted the floors of his dormitories every year, one year with one paint, next year with the paint of the other dealer there—to divide the business between them—till Devoe came to town. The job took 90 gallons; takes 60 Devoe. The difference, 30 gallons, $1.50. He didn't know he was losing $150 a year till he got Devoe.

Another example. When Geo W Brown, Union, S C, painted B F Arthur's house first time it took 30 gallons "cheap" paint; repainted Devoe; 14 gallons.

Yours truly,
F W DEVOE & Co.

Virginia News.

The thirty-fifth annual session of the grand council of the Royal Arcanum will be held in Danville April 18, the session lasting three days.

William H. Conrad, a highly respected farmer and one of the oldest residents of Prince William county, died in his home on the Bull Run battlefield Tuesday.

Rev. H. H. Covington, of Sumter, S. C., who was invited to become rector of Monumental Church in Richmond, has declined the call definitely and finally.

Doctor and Mrs. S. D. Kennedy, of Warrenton, announce the engagement of their daughter, Agnes Gray, to Dr. William Beverly Mason, of Washington.

T. C. Pilcher, a former member of the house of delegates, whose announcement as a candidate for the State senate from the counties of Loudoun and Fauquier was made public yesterday, will be opposed by G. Latham Fletcher, of the Warrenton bar.

Miss Hattie Davis, eighteen years old, was fatally shot while walking in East Hill Cemetery, Bristol, last night, and died two hours later. Ack Hale, twenty years old, who was with her, is under arrest, charged with the murder, and accused of it by the young girl.

The Point-to-Point Steeplechases, given annually by the Warrenton Hunt Club, will take place April 2, at Clifton Farm, four miles from Warrenton. There will be four races, the Warrenton Hunt steeplechase, an open steeplechase, a steeplechase for half-bred hunters and a farmers' race.

Mrs. Charles H. Lewis, while hanging out clothes in her back yard in Richmond yesterday, sneezed while her mouth was full of pins, with the result that she swallowed a number of them. She was taken to a hospital, where she is suffering intense pain. The physicians in charge of the case have not decided whether an operation will be necessary. They agree, however, that the woman is in a most critical condition. The X-ray will be used to locate the pins.

The body of Thomas Deloatch, eighteen years old, of Southampton county, was found yesterday in the chimney of a vacant house near his home. He had climbed to the house top and jumped down the flue. Attracted by flies and vultures, searchers broke into the house and found the dead man's feet and ankles protruding into the open fireplace. The body had been wedged and would descend no further. Deloatch probably starved to death. In order to remove the body the chimney had to be torn down. The deceased had been missing for three weeks.

Fears are entertained that an attempt will be made to lynch John Walker, a negro, held in jail at Staunton, charged with attacking Mrs. H. M. Painter, wife of the Chesapeake and Ohio Railroad ticket agent at that place. Mr. Painter left his home to meet the early train yesterday morning, and shortly after his departure Mrs. Painter was rudely awakened by some one taking hold of her feet. She saw a negro standing at the foot of her bed and screamed to such good purpose that the intruder fled. Later Walker was arrested, and Mrs. Painter identified him as the man she saw in her room.

The Jamestown Board.

The board of governors of the Jamestown Exposition Company last night gave out an official statement announcing that the resignation of Chief of Exploitation A. L. Sutton, against whom charges had been preferred by Terry B. Gordon, who is interested in several amusement concessions, had been accepted.

Mr. Gordon appeared before the board of governors yesterday and stated that Mr. Sutton had made him a proposition to exploit his enterprises through the publicity department of the exposition for $100 a week.

At the hearing Mr. Sutton declared that he intended performing the service mentioned after his regular hours and with the consent of the exposition officers, and that he had no intention of using the publicity bureau for this purpose. The board deemed it expedient to accept the resignation of Mr. Sutton, which was before them.

Among other matters disposed of was the claim of Mrs. Fitzhugh Lee for $10,000, the salary of the late Gen. Fitzhurg Lee for a year as president of the company. The salary was voted paid without a dissenting voice.

Suicide of Young Woman.

Naomi Yates, a 16-year-old school girl, jumped into the Chesapeake and Ohio canal at Washington yesterday afternoon and was drowned. The only writing on her clothes was a package of church contribution envelopes marked "Monthly offerings of the Farther Lights, 508 Tremont Temple, Boston." On the back of one of these was written the name "N. Francis," which led to the theory that she was from Boston, one of the large party of tourists now in Washington.

The body was finally identified at the morgue, and a pathetic story of the girl's life became known. She was a sufferer from hip disease and did not get on well at the home of her stepfather, A. H. Francis. Despondent, she boarded a street car, rode to the opposite side of the city and calmly committed suicide. She was a girl of excellent character and belonged to a girl's society at the Second Baptist Church that has been collecting funds for the Farther Lights Mission.

The Thaw Case.

There was a sudden shift yesterday in the membership of the commission which is to decide whether or not Harry K. Thaw is now sane and capable of advising with his counsel. Ex-Justice Morgan J. O'Brien, who it was expected would be chairman of the commission, resigned on account of ill health and Justice Fitzgerald appointed David McClure, the lawyer, in his place. Thaw will be present at the hearings into his sanity, the first one of which will be heard this afternoon.

"Preventics" will promptly check a cold or the Grippe when taken early or at the "sneeze stage" Preventics cure seated colds as well. Today's Telegraphic News

Conditions in Roumania.

Bucharest, Roumania, March 28—Fear that a revolution may sweep across Roumania, threatening the throne, as a result of the peasant uprisings in the farming districts, is agitating the authorities today. The real danger of the situation has not been made known to the outside world.

Indications that Russian anarchists are really directing the revolutionary movement have added additional alarm.

In official circles denial is made that any apprehension is felt as to the outcome, but preparations made to guard the palace against all attacks speak for themselves.

That the uprising has passed to a different state than when the peasants of Moldavia started the agitation is shown in today's reports of outrages. The rioters are now destroying property indiscriminately. The killing of many peasants by troops has inflamed the lawless bands operating throughout the country districts. Wherever there has been wholesale killings the marauders have renewed their depredations with increased vigor as soon as the soldiers were withdrawn.

Wallachia now seems to be the storm centre of revolt.

In one fight between soldiers and peasants, 300 of the latter were killed. The number of killings increases there daily. In the Dimbrevitsa and Dolj districts disorders are growing worse.

So far the reforms granted by the government have not quieted the disturbances. Government officials are hopeful, however, as soon as the decree becomes generally known the disturbances will cease.

Bucharest, Roumania, March 28, via Vienna.—Hundreds of peasants are being killed daily in the fighting between troops and the paraders who are laying waste the country districts. Numerous bloody conflicts are reported from southern Roumania, accompanied with heavy loss of life.

Rebels made an attack on Trigoviste arsenal, but were repulsed with heavy loss. The devastation of estates continues and many of the landlords against whom the wrath of the peasants is aroused have been put to death. A wealthy land owner living near Petreschli, a relative of the former cabinet minister, had a narrow escape with his life. He was in bed when peasants attacked his home. He escaped to the stable in his night clothes and saved his life by riding in this attire to Bucharest. A strict censorship has been established by the government. Not only have most press messages been held up, but today telephone communication with Buda-Pesth was stopped.

Will Demand Government Interference.

Chicago, March 28.—With the most gigantic railroad strike in history about to be called, the general managers of over forty western systems, embracing 95,000 miles of track, demand governmental interference in order that the entire railway business of the West may not be paralyzed.

A formal demand will be made at Washington for arbitration under the Erdman act. When arbitration was suggested yesterday by the committee of general managers in conference with Union representatives, the employes refused to arbitrate.

Anticipating such a suggestion, the men in session Monday night voted that the time for arbitration had passed. The situation is now realized by the railway managers to be most critical. The strike when called, will effectually tie up every railroad west of a line drawn from Winnipeg through Chicago to New Orleans.

Last night the general managers met and decided to demand government interference and so notified the representatives of the employes.

Following the breaking off of negotiations the one hundred and ninety-six representatives of the employes went into session and voted that a strike be called. The date for the calling out of the men will be set today.

The War in Central America.

Managua, Nicaragua, March 28—Honduran revolutionists who took part with the Nicaraguan troops in driving President Bonilla from power, may rule in Tegucigalpa in succession to the fugitive president.

Report received here today from Honduras say that President Zelaya's representatives now rule there and that the Nicaraguan troops are maintaining order.

It is not believed that Zealaya has any ambtion to control Honduras permanently. To attempt to do so would weaken him too much, in his own country. But Zelaya does want some one friendly to himself at the head of the Honduras government. It is expected that he will set up Bonilla's successor.

If Zelaya tried to place one of his own generals in the executive office of Honduras it would result in a general uprising. But it is believed there are many of the revolutionists who would be accepted by the people. If Zelaya can put a man friendly to him in office it will assist him materially in forming the union of Central American states it is his ambition to establish.

France and Morocco.

Tangier, Morocco, March 28.—Foreign residents in Morocco are believed to be in danger as the result of the steps taken by France to punish the Sultan for his failure to make reparation for the assassination of Dr. Mauchamp. Reports from interior towns say the natives have been greatly stirred by the sending of French warships to Morocco and the determination to hold Oujida until France's demands are granted.

Demonstrations against Europeans have been held in several towns, the Moors parading the streets and declaring they will drive out every foreigner.

The French demands will be forwarded to Fez when they are formally presented to Mohammed El Torres, the Sultan's representatives by the commanders of the French warships now here. It will require several days before the Sultan can send his reply.

Foreigners here believe he will readily accede to all France's demands when he sees they are made in earnest.

The Alaska Packers Association are about to introduce the Argo Red Salmon in this market. They are the largest Salmon canners in the world, employing an army of 7,500 men, with a fleet of over sixty vessels, and the Argo is the choicest Red Salmon packed. It is caught in the icy waters of Behring Sea. The flesh is meaty firm, of a beautiful red color and delicious flavor. It sells at 15 cents a can, which is much below the price that good qualities of Salmon have sold for in the past.

The Thaw Case.

New York, March 28.—Whether or not Harry Thaw goes to Matteawan now depends entirely on himself. His attorneys declare it is quite within his ability to demonstrate to the lunacy commission which will examine him that he is perfectly sane today and fully capable of advising them. If he fails to do so, they insist the fault will be his own.

Thaw, it was reported today, will be one of the first persons examined by the commission, and it is expected he will be subjected to a physical examination soon. The purpose of this is to allow the commission to reach a conclusion in the near future, if possible.

If an examination of Thaw and submitting him to physical tests proves he is insane, in the judgment of the commission, it is stated the lunacy board will so report immediately without going to the length of examining other witnesses or wading through the thousands of pages of testimony bearing on his mental condition in the record of his trial.

If the examination of the defendant does not show Thaw to be insane, the lunacy board may require several weeks to complete its work. With all the witnesses available, it might require as much time as the trial has taken to get all the evidence that the commission desires.

Woman Fights a Burglar.

New York, March 28.—Thrown into a blind fury by seeing her husband murderously struck down by a burglar, Mrs. Adolph Oestricher sprang from her bed early today and attacked the intruder. He struck at her with a heavy screw driver with a loaded handle, but his blow missed and she leaped upon him and succeeded in snatching the screw driver. The woman and thief grappled for a full minute, Mrs. Oestricher wielding the screw driver with good effect. Finally the burglar realized that he was being overcome and, stepping back, he kicked the woman in the abdomen. With a scream she sank to the floor and lay unconscious beside her husband. The thief, who has been identified as Clifford M. Smith, a former member of the Seventh Regiment, National Guard of New York, climbed over a transom and fell into the arms of a policeman.

Alleged Filibustering Exposition.

Havana, Cuba, March 28.—A filibustering expedition is reported to have left here for Honduras to assist President Bonilla in his war against Nicaranua. Several Americans are said to be in the party. For several weeks a Honduran agent has been at work in Cuba, but he failed to secure many recruits. A small sailing vessel accommodated the filibusters which is reported to have sailed from the vicinity of Santiago de Cuba.

Mansfield Cancels Engagements.

New York, March 28.—By order of his physicians Richard Mansfield has cancelled all his theatrical engagements for the balance of the season and will take a complete rest, as his health is shattered. His season had six weeks to run and the cancellation of dates will mean a heavy loss to the actor.

Recount Bill Passed.

Albany, N. Y., March 28.—The Hearst recount bill has been passed by the Assembly. Hearst claims to have been illegally counted out in the last New York mayoralty election.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Easter Eggs.

The coming of Easter is hailed with delight by children the world over. In all civilized lands it means almost a second Christmas so greatly in favor has the idea spread of exchanging presents. The stores in this city contain displays of Easter toys and novelties, in which rabbits, roosters, hens ducks and varicolored eggs play the important part, for while dolls, fans and dainty trifles are given as Easter remembrances to the youngsters still the rabbit and egg remain symbolic of the season.

Before modern ideas sprang up the ancients use the egg to symbolize the resurrection, the beginning of life and the return of spring and its joys to old Mother Earth. In Germany the most elaborate Easter eggs are made—sugar, chocolate, glass and porcelain eggs with odd little yellow chicks peeping out in amazement at the big world just coming into view. The little German children believe they are laid by hares, which idea is no doubt a relict of some pagan legend.

The choice of little folks is ever the large white candy egg trimmed in pink and white icing and little pictures. At one end is a window, a hole covered with glass in an inch frame. Put your eye to the hole and squint the other orb; there is the secret of its charm revealed in the pictures of cathedrals, trees, tiniest chicks and flowers arranged like a miniature stage setting. This egg endures for many weeks or even months until it falls a victim of some careless hand. Even then it gives joy, the pictures are treasures long after the shell is swept away.

But rich and poor alike love to fill their pockets with colored hard boiled eggs.

The art of dyeing is so simple any child may succeed at it and have an array of eggs to play "butting eggs." Any eggs from a bantam to an ostrich will answer, just be sure to have it hard boiled, and a dime's worth of dyes will color any number of them.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Mary James, colored, arrested by Officers Nicholson and Knight on suspicion of burglary, had her case continued.

Fannie Davis, colored, arrested by the same officers on a similar charge, was dismissed.

William Cameron, arrested by Officer Henderson charged with conducting business without a license, had his case continued.

Edward Coleman, colored, arrested by Officer Arrington charged with incorrigible conduct, was dismissed.

Celia Keys, colored, arrested by Officers Beach and Roberts charged with being drunk and disorderly, was sent to the workhouse for 20 days.

William Blackey, arrested by Officers Knight and Ferguson charged with vagrancy, was dismissed.

Funeral.

The funeral of the late Mrs. Sarah A. Munroe, who died suddenly at her home in this city last Monday night, took place this morning from St. Mary's Church, and was attended by a number of friends and acquaintances of the deceased. The services were conducted by Rev. Father Kelly, and the pallbearers were Messrs. Edward Waters, Frank Brawner, Stephen McCauley, Joseph Bradley, Harry Rice and Thomas Toppins. The interment was in St. Mary's cemetery.

A line of water mains has just been laid on Franklin street from Lee to the shipyard.

The Trial of Johnson.

After the close of yesterday's report of the Johnson's trial in the Corporation Court the court at 4 o'clock adjourned until 10 o'clock this morning.

Immediately after the adjournment of court Johnson, under the escort of the Fredericksburg military company, was placed on a special car on the Mount Vernon Electric Railway and conveyed to the Alexandria county jail, on Fort Meyer Heights, for the night.

It was nearly nine o'clock this morning when the special electric car with the soldiers and prisoner reached King and Fairfax streets. Many people were on King street anxious to get a glimpse of Johnson as the car passed along. Doorsteps were occupied, and in most homes people were looking up and down the streets from windows, awaiting the appearance of the car in the distance.

When the car finally came to a stop at King and Fairfax streets several hundred people had gathered at and near that intersection. Johnson, handcuffed to one the soldiers, was placed in the centre of the command and marched to the station house. The prisoner kept step with the same precision of the soldiers accompanying him. He was soon behind the bars in the station house with two soldiers with crossel bayonets guarding the door leading to the corridor, two others at the front door and the remainder of the command deployed in front of the building.

The court was called to order shortly after ten o'clock, and a few minutes later the prisoner was brought in by a squad of soldiers and placed in the dock.

Johnson appears to be the most calm and collected man in the court room, and is a very attentive listener.

Judge Barley granted the motion of Mr. Brumback, counsel for the prisoner, made yesterday, that the testimony of Policeman Roberts concerning a conversation he had had with C. T. Smith on the night previous to the killing of the latter be stricken out.

Policeman Beach was the first witness placed on the stand. He recognized a coat he found in Capt. King's yard on Payne street on the Tuesday morning following the murder of the previous Saturday night. Two .44 calibre cartridges were found in one of the pockets.

Wash. Jackson, colored, was again called. He said Robinson was not boarding with him at the time of the shooting. After the shooting he had a conversation with Policeman Knight; he did not remember the details of that conversation. He might have told the policeman that Johnson shot Smith. Robinson had boarded with witness about two weeks previous to the killing. Johnson and Robinson were often together, and met at his (witness's) house at different times. He had been told that Johnson had killed Smith, and based his statement to Policeman Knight on what he had heard.

James J. Kelly was the next witness. He saw Smith on the corner of West and King streets about 8:30 o'clock on the night the latter was killed. Smith wanted to borrow a pistol from witness. Garvey and Smith went on the south side of the street together.

Cora Connors, colored, followed. She told of the disorder which caused Policeman Nicholson to attempt to arrest Johnson and Robinson. She recognized a hat and coat shown her as having belonged to Frank Robinson; also an overcoat as having belonged to Johnson.

Arthur Meeks was the next witness. He saw Policemen Garvey and Smith previous to the killing; heard Garvey say "I am after a dangerous negro;" saw Officer Garvey when he placed his hand upon the negro's right arm; saw Smith run up and take hold of the negro's left arm; saw the negro draw his pistol and fire over his left shoulder; saw the flash and Smith started to fall; Garvey caught hold of Smith; the negro had whirled around quickly and in doing so had caused Garvey to reel which knocked the latter's pistol from his hand; saw Garvey strike several times at the negro; Garvey cried, "For God's sake shoot him"; the negro ran and witness ran after him; witness discharged his pistol at the fugitive; was sure he shot him in the leg, as the negro suddenly began to limp; the negro fired again as he ran. An hour later, when the search was being made for the negro who had shot Smith, the witness saw the prisoner in the box (whom he positively identified) standing in the corner of a fence west of the old fair grounds and opposite Wash. Jackson's boarding house; the negro who was on the inside of the fence, spoke to witness; the negro spoke as though nearly out of breath; he wore neither hat nor coat; witness was within six feet of the man and observed him closely; was afraid to attempt to arrest him, knowing the negro was armed. When asked concerning his subsequent procedure, witness said he reported what he had seen to the police; he was afraid to return by himself as the negro had already killed one man. The witness was subjected to a rigid cross-examination.

Meeks was followed by Benjamin Waters. He recognized the prisoner as William Johnson; saw him in a bar on the Saturday night on which Smith was killed. Witness described the clothing worn by Johnson that night.

Chief Goods then took the stand. He recognized the cartridges taken from the coat found in Captain King's yard.

[Counsel for the defense at this juncture denied that Policeman Beach had stated that he took the cartridges from the coat, and he was recalled. He stated that the cartridges were taken from the coat, but he did not find them.]

Officer Young was called and said he was not on duty when a coat was brought in.

Mr. James McCuen (one of the jurors) asked if no record of such things was kept at headquarters, and Mr. Brent said "No."

Chief Goods said he knew Wash. Jackson and had talked with him about the murder. Jackson always said he knew it was Johnson and not Robinson who killed Smith. He made that statement the night of the murder and again in Mr. Brent's office, saying that he could tell it was Johnson by his height.

Gertrude Robinson, who said her right name was Maud Lake, was put on the stand. She said she knew the prisoner by the name of William Johnson and never knew him by the name of George Midgets until after October 20. She and Robinson had lived at Wash, Jackson's hotel and went to live at the house of a colored man named Bell, on north West street, October 1. She said the row at the circus grounds was caused by Frank Robinson, whose right name, she said, is Morgan Minor. Robinson was trying to draw his pistol and Johnson tried to take it away. She identified a light hat and a light topcoat as belonging to Robinson and also a black coat and a light topcoat and an ulster as the property of Johnson. She said both men could wear the same coats, but she never saw Robinson wear the brown ulster which she had identified as belonging to Johnson.

Counsel for the prisoner tried to bring out the fact that Robinson had killed several people, but the evidence was excluded.

Policemen Ferguson told of two men wearing light overcoats and light hats running through an alley after the assault on Nicholson, and said he and several others gave chase, but the men got away. He, Smith and Garvey placed the women under arrest and Smith took them to the police station at the request of Garvey. Witness said he was watching Bell's house when there were shots on King street, and heran to that point. Officer Ferguson testified that Wash. Jackson had told him twice that he knew it was Johnson who shot Smith. He also stated that Johnson had talked freely and voluntarily on the way from Harrisburg. He said Johnson claimed that he was shot at the time Nicholson was assaulted and that he spent the night at the race track and came back Sunday night, went to Robinson's room and got two revolvers and then went to Philadelphia. Mr. Ferguson said Johnson remarked that he expected that he had as well plead guilty, but said "If they hang me they ought to hang Robinson." Mr. Ferguson was cross-examined at considerable length by counsel for the prisoner.

At this point Mr. Brent asked for a recess in order that he might consult with some new witnesses, and at 12:40 court adjourned to meet again at 1:45 p. m.

AFTERNOON SESSION.

The first witness called at the afternoon session was Policeman Garvey, who was with Smith when he was killed. He first saw Smith about 8 o'clock. The witness and several other officers were detailed to the circus grounds. He was in front of Mrs. Blouse's with Ferguson when there were shots across the way and Charlie Smith told him that Nicholson had been assaulted. He loaned Smith his blackjack and the two pursued the men until they were compelled to give up and they then followed the women. He said they found them at Peck's store and he turned them over to Smith to be taken to headquarters. McCuen joined him and then left him and he located Johnson in the crowd. Johnson, whom the witness said he knew well, went to Washington Jackson's without an overcoat and in a short time emerged, wearing a long ulster. When Johnson reached a point near the boiler he arrested him, but could not reach the side on which the negro carried his gun because of a lot of boards on the sidewalk. He was escorting the negro to Jackson's to have him identified when Smith joined him. The negro wheeled suddenly and fired, and witness thought the man who fell was McCuen. He had lost his gun in the excitement and called out, as well as he could recollect, "Kill that man, he has killed McCuen."

On cross-examination by Mr. Brumback Garvey said he meant by saying that he "knew Johnson well" that he had been watching him for several weeks, suspecting him of being a policy runner. Mr. Garvey was subjected to a through cross-examination by counsel for the prisoner, during which the witness pointed to the prisoner and said. "I know that is the man that shot Smith." The witness testified that Johnson shot three times; the last two, he believed, being intended for him. Garvey said he wouldn't know Robinson if he were to see him, but he was positive that the prisoner was the man he arrested and the man he arrested was the man that fired the shot that killed Smith.

Attorney Smith asked the witness if he did not tell the finance committee that he had not called on Smith to assist him, and he said that he had, but denied that he had said that he would have been better off if Smith had not interfered. When Meeks shot at Johnson, witness said, the negro went down on one side and then limped.

Question after question was propounded to the witness by counsel for the defense and many of the questions were repeated over and over, but the court was indulgent and the cross-examination was drawn out to great length.

Wash Jackson was recalled by the prosecution. Mr. Brent asked the witness if the prisoner spent each night at his hotel. He replied that Johnson was frequently absent three or four nights in a week. He only knew why he was away from what Johnson told him.

Policeman Beach was then recalled and testified substantially as on a previous occasion.

The Commonwealth then rested its case.

The defense then recalled Officer Beach to the stand and he stated that Officers Garvey and Lyles had both told him of two strange negroes who should be watched.

[This bore out Officer Garvey's statement that he had been watching the two negroes and had told his partners about them.]

Court then recessed for 15 minutes to allow counsel for the prisoner to consult.

When court was called to order again at 3:25 p. m., Mr. Henry Baader, of the finance committee of City Council, was sworn. He testified that Garvey had told the finance committee that Smith ran in between him and the negro and that he could have handled the negro to better advantage if Smith had not interferred.

Mr. Smith then asked to have the jury carried to the scene of the shooting and the court said it would be well to give the jury a walk this afternoon.

John Fletcher, of 2807 Duke street, said he was at the pump opposite the scene of the shooting and saw people shoot at the man who was running away. The man was apparently not hit by any of the bullets.

As this report closed Sarah Midgets, the alleged wife of the accused, was called to the stand.

DIED.

At her home, No. 211 Wolfe street, on Tuesday night, March 26, at 11:40 o'clock, MAMIE HAMILTON, wife of C. Frank Hamilton, aged 26 years. Funeral from the residence tomorrow (Friday) afternoon at 2 o'clock. Friends of the family invited.

At the residence of George W. Bontz, Wednesday, March 27, 1907, JAMES L. HOWISON. Funeral from the residence, 422 north Alfred street, tomorrow (Friday) evening at 4 o'clock. Friends and acquaintances invited.

COX & GORDON HAMS, just received by J. C. MILBURN.

Personal.

A dispatch from Eagle Rock, says: The Presbyterian church at Gala was, last Wednesday the scene of one of the prettiest church weddings of the year, when Miss Virginia L. Hannah became the wife of Mr. Edward Wright Spencer, the stamping clerk for the Southeastern Tariff Association at Alexandria.

Mr. James C. Hooe, candidate for Congress from this district, and his friend, Mr. Coolidge, of Washington, were in this city yesterday evening.

Lieutenant Smith, of the police force, is taking a short vacation, and Officer Roberts is acting in his stead.

Rev. Dr. Fisher has returned from Lynchburg, where he has been holding a very successful meeting during the past two weeks, and will occupy his pulpit in the Baptist Church on Sunday next, morning and night.

Mr. Carroll Pierce has been elected a director of the Citizens' National Bank to fill the vacancy caused by the death of Mr. W. Frank Lambert.

Mr. Reginald Hyde, who has been quite sick at the Alexandria Hospital for some time, has recovered and left the city for his home in Fauquier county.

The Fredericksburg Company.

Company L, Seventieth Virginia Regiment of Fredericksburg, under Capt. T. M. Larkin, First Lieut. A. G. Billingsley, and Second Lieut. B. M. Leavell have made many acquaintances since they have been in this city guarding William Johnson, colored, now being tried for killing Chas. T. Smith. The officers and men are courteous and friendly in their demeanor, and by their uniform deportment they have made numbers of friends in Alexandria.

Good Friday.

Tomorrow will be Good Friday the most solemn day in the church calendar, commemorating the crucifixion of the Saviour of Mankind. Special services will be held as follows:

Christ Church at 11 a. m.; St. Paul's church, 11 a. m.; Grace church, 10:30 a. m. 12 to 3 p. m. and 7:30 p. m.; Immanuel Lutheran, 11 a. m.; and St. Mary's, 8 a. m. and 7:30 p. m.

Maundy Thursday.

The day before Good Friday is distinguished as "Maundy Thursday." In olden times on this occasion food was distributed in "maunds" (baskets) to the poor, and the custom of feet-washing was observed. These customs were instituted in England in 1368 during the reign of Edward III. Services appropriated to the day were held in several of the churches of this city today.

The Fishing Season.

Notwithstanding the mild weather of the past few days, the fishing season is backward, and so far there have been no receipts at Fishtown. Some fine shad are being exposed for sale in market. The shad shows a weakening tendency, the best roe varieties selling this morning at 75 cents each. Buck were quoted at 40 to 50 cents. White perch sell at from 12 to 15 cents a pound.

Cake and Apron Sale.

The Junior Daughters of the Mary Custis Lee Chapter U. D. C., will have on Saturday March 30th, from 3 to 5 p. m. at Confederate Veterans Hall, one of their attractive cake and apron sales. You will find the cake home made and delicious and the aprons of all kinds. Ten cents will be charged for admission which includes refreshments.

For Catarrh, let me send you free, just to prove merit, a Trial size Box of Dr. Shoop's Catarrah Remedy. It is a snow white, creamy, healing, antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by E. S. Leadbeater & Sons, druggists.

LOCAL BREVITIES.

Schools close this evening for Easter holiday.

Luther Russell was brought to the Alexandria Hospital yesterday evening from Neabsco, where he had his leg injured while at work on a railroad bridge.

Raymond Cronin, son of Mr. Dennis Cronin, died at the Alexandria Hospital last night. The young man was recently operated upon for appendicitis.

The barge E. B. Skinner, from Baltimore with fertilizer for the Bryan Fertilizer Company, has arrived.

The Alexandria bank statements published today show these institutions to be in excellent condition.

In the Corporation Court today Charles J. Bradley was appointed administrator of the estate of Sarah A. Munroe and also guardian over Kate L. Munroe.

Assignment.

New York, March 18.—An assignment was made by the Corbin Banking Company today. The company had formerly done a big business in buying up gas titles but recently it has been endeavoring to wind upon its affairs. George C. Austin, the assignee, says that the assets will exceed the liabilities by about a million dollars and that the suspension is only of a temporary character, and was brought about by the fact that the securities were of such a character that they cannot be realized on at the present time.

New York Stock Market.

New York, March 28.—After the early trading the stock market developed sudden strength in prices and moved up 1 to 5 points over yesterday's closing figures. The movement on which this gain was made was apparently on orders from important banking interests. Houses that are almost always positively informed in regard to large railroad financing said that control of Union Pacific has changed hands. This statement has come on the floor at various times in the shape of rumors and reports and has met with contradiction, but statements made today come from higher sources. Nearly everything on the list joined in the demonstration of strength during the first hour.

Lost and Found,

Lost, between 9:30 p. m., yesterday and noon today, a bilious attack, with nausea and sick headache. This loss was occasioned by finding at E. S. Leadbeater & Son's drug store a box of Dr. King's New Life Pills, the guaranteed cure for biliousness, malaria and jaundice. 25c.

BACKACHE

"I wrote you for advice," writes Lelia Hagood, of Sylvia, Tenn., "about my terrible backache and monthly pains in my abdomen and shoulders. I had suffered this way nine years and five doctors had failed to relieve me. On your advice I aook Wine of Cardui, which at once relieved my pains and now I am entirely cured. I am sure that Cardui saved my life."

It is a safe and reliable remedy for all female diseases, such as periodical pains, irregularity, dragging down sensations, headache, dizziness, backache, etc.

Cut Her Throat for Relief.

Fearing she was choking to death in an asthmatic attack, Mrs. Eliza Pendleberry, eighty-one years old, of Philadelphia, gashed her throat with a razor yesterday morning in an attempt to get her breath, and lies in a serious condition at the West Philadelphia Homeopathic Hospital. Mrs. Pendleberry, who resides with her son James, has been for years a sufferer from asthma, and of late she has been despondent over her ailment. About ten o'clock yesterday morning, while she was in the bath room of her home, and unable to summon assistance, she grasped her son's razor, lying on a shelf nearby, and cut her windpipe. The heroic measure had immediate effect, for she was able to call for help. With blood pouring from her neck, she was removed to the hospital. There it is said small hope is entertained for her recovery, owing to the loss of blood and the danger from pneumonia.

Health in Canal Zone.

The high wages paid make it a mighty temptation to our young artisians to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by E. S. Leadbeater & Sons, druggists 50c.

A Mother's Terrible Deed.

Mrs. James Hemphill, wife of a prominent manufacturer, of Akron, Ohio, became insane suddenly yesterday afternoon and hanged her nine-year-old daughter Helen to a bed post. After the child was dead she took the body down and hid it in a clothes box. When her husband returned home in the evening he found her hanging to the same bed post with a rope around her neck. He cut the rope and saved her life. As soon as she was able to speak Mrs. Hemphill told her husband what she had done, saying that Helen was better off in heaven. Mrs. Hemphill was a prominent society woman and a great church worker. She had never shown any signs of insanity up to the time she took her child's life, but was of a nervous temperament. Doctors say that insane love for her daughter prompted the deed.

Many sufferers from nasal catarrh say they get splendid results by using an atomizer For their benefit we prepare Ely's Liquid Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain-allaying Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing spray relieves at once and cure is certain. All druggists, 75c, including spraying tube, or mailed by Ely Bros., 56 Warren Street New York.

Victory for Standard Oil.

London, March 28.—The Standard Oil Company has just won an important victory over European competitors in the oil field according to the Pall Mall Gazette, and forced the combination formed by a huge group of German, Roumanian, Russian, Dutch, and British capitalists, to come to an agreement with it practically on its own terms. The recent agreement between the American trust and the European syndicate is to take effect on Monday. The Standard Oil trust, the Gazette asserts, through the agreement ensures control of many important oil tank installations in Amsterdam, Antwerp, and Rotterdam. This is the third time the Standard has triumphed over European competitors.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poison enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by E. S. Leadbeater & Sons, druggists.

Girls in a Panic.

Philadelphia, March 28.—Two hundred girls employed in a big textile mill at Howard and Berks streets, were thrown into panic today when fire broke out in the structure. Firemen had apparently subdued the flames, which originated on the second floor, and the operatives were preparing to resume work when the blaze broke out afresh, driving the girls in terror to the fire escapes. Firemen and male workers took the young women out, many of them having fainted. The building which extends over almost a whole block, was destroyed. It was occupied by J. Wesley Johnson and the Coulson Manufacturing Company.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Guaranteed under the food and drugs act, June 30th, 1906. Serial number 1098.
